Teacher Notes

Objective

Students will be able to identify and name 12 basic colors in English and Spanish, and associate them with common objects.

Suggested Use

Introduce colors using flashcards and realia. Use the mini-book for shared reading and repeat after me. Worksheets can be used for independent practice, small group work, or as a station activity. Encourage students to point to colors in the classroom.

Materials Needed

- Crayons, markers, or colored pencils
- Color flashcards (English and Spanish)
- Real objects of different colors (e.g., red apple, blue ball, yellow banana)
- Scissors (for mini-book assembly)
- Glue sticks (for mini-book assembly)

Differentiation Tips

Support: Provide color cues or physical color swatches for matching. Allow students to work in pairs. Focus on 3-4 colors at a time for initial learning. Use hand-over-hand for tracing if needed.

Challenge: Encourage students to use colors in simple sentences (e.g., 'The car is blue.'). Ask them to identify colors of objects not on the worksheets. Introduce color mixing concepts.
