Teacher Notes

Objective

Students will be able to identify and name basic shapes (circle, square, triangle, rectangle, star, heart, oval, diamond, hexagon, semicircle) in both English and Spanish.

Suggested Use

Introduce shapes using visual aids and real-world examples. Use the mini-book for shared reading and independent practice. Worksheets can be used for reinforcement, assessment, or homework. Encourage students to point out shapes they see in the classroom.

Materials Needed

- Crayons or colored pencils
- Pencils
- Scissors (for mini-book assembly)
- Glue sticks (for mini-book assembly)
- Optional: Real-world objects representing shapes (e.g., a ball, a book, a cracker)

Differentiation Tips

For students needing more support: Pre-teach vocabulary with flashcards. Provide physical shape manipulatives. Pair with a peer for collaborative activities.

For students ready for a challenge: Ask them to draw objects that are specific shapes. Introduce 3D shapes. Have them create a 'shape hunt' in the classroom or at home.
