Teacher Notes

Objective

Students will be able to identify and name common technology and computer-related vocabulary in English and Spanish, and understand their basic functions.

Suggested Use

Introduce vocabulary using the mini-book and flashcards (printable from vocabulary list). Use the matching worksheet for initial vocabulary acquisition, the tracing worksheet for spelling and recognition practice, and the coloring worksheet for creative reinforcement. Encourage students to share their experiences with technology.

Materials Needed

- Printed vocabulary list (for flashcards)
- Printed mini-book (one per student)
- Printed worksheets (one set per student)
- Crayons or colored pencils
- Scissors (for mini-book)
- Glue or stapler (for mini-book)

Differentiation Tips

Support: Pair students with stronger English speakers, provide realia or larger pictures of technology items, pre-teach words with gestures, allow students to use L1 for initial understanding.

Challenge: Ask students to create simple sentences using the new vocabulary, describe how they use a specific technology item, or draw their own 'future technology' and label it.
